

# SETTING UP GOOGLE WIFI 6E

## DOWNLOAD THE GOOGLE HOME APP

1. Download the Google Home app on your Android or iOS mobile device.
2. If this is your first time using the Google Home app, set up a home.
3. Choose a location for your router
  - a. If you have multiple Nest Wifi Pro routers, you can use any of them as your router.
  - b. This router will need to be connected to a working modem that's connected to the internet.
  - c. For the strongest signal, place your router at eye level in plain view, like on a shelf or TV stand.
4. Connect the Ethernet cable to your Nest Wifi Pro router's WAN port . Then, connect the other end of the cable to your modem.
5. Plug in your Nest Wifi Pro router into a wall outlet. After about a minute, the light will slowly pulse blue to indicate it's on and ready for setup  
\*If your Nest Wifi Pro doesn't show a pulsing blue light, perform a factory reset.

## ADD YOUR DEVICE

6. On your phone or tablet, open the Google Home app.
7. Tap **Add** + > **Set up device** > **New device**.
8. Choose a home.
9. Select your Nest Wifi Pro router.
10. Scan the QR code on the bottom of your device.
  - a. Hold your phone about 5 inches away to scan.
  - b. If you're unable to scan the QR code, tap **Continue without scanning**, then enter the setup key on the bottom of your device.
11. Give your Wi-Fi network a name and secure password. To keep all of your devices connected, we suggest reusing the same network name (SSID) and password as your old router.
12. Select a room for your router, or create a new one.
13. The router will now create your Wi-Fi network. This might take a few minutes.
14. If you'd like to add another Wifi device, tap **Yes** in the app to continue, or follow the steps below to add a point at a later time.

## SET UP ADDITIONAL ROUTERS (POINTS)

### Open the Google Home app

- Tap **Add + > Set up device > New Device.**
- If prompted, choose a home.
- Select the device you'd like to set up as a point > **Next.**
- Scan the QR code at the bottom of your device.
  - Hold your phone about 5 inches away to scan or tap **Continue without scanning**, then enter the setup key on the bottom of your device.
- Follow the in-app instructions to finish setup.

### Adding an additional point

- Tap Yes in the app when prompted to add an additional point and repeat the steps above.

## REVIEW YOUR NETWORK

After your Google Wi-Fi points are setup, you'll see an overview of your Wi-Fi network and all the Wi-Fi points you've set up.

## CONGRATULATIONS!

You have now completed the set up for your Google Wi-Fi, Enjoy!
